

CHRIS MATHEWS

Hello! My name is Chris Mathews. I earned my B.S. in Early Childhood Education from James Madison University. I taught in the public schools in Arlington, TX for eight years. After a 10 year hiatus to stay home with my children, the opportunity to join John Knox Kindergarten presented itself and was the perfect place to get back in the classroom. I've been teaching K-5 for over 20 years. I like to keep my class busy learning through hands-on activities, group work, and many art projects. We will experience cooking projects, science experiments, Chapel time and tons of fun. I look forward to meeting all of you!
